Helltown

Helldorado

This town was built by God's own hand
But now it is ruined by the arms of man
It's such a bloody shame
But we've got ourselves to blameChorus:
It seems like we've been raising hell
in this town for too long
When are we gonna pay for all
the damage that we've done?Where's the sheriff of this forsaken town
He's lying dead drunk on the dirty ground
This town has lost it's pride
and all our decency has diedThis is the place the vultures have their feast
on the bones of the sexton and the priest
The nauseas choking air
It's more than I can bare
