

# Terribly Dark

Frida HyvÄnen

It feels like...

I've been indoors for a century now  
I'm dying, I'm dying to see sunlight  
And when it shows, will dissolve in it  
Like I used to do as a child

I hear shots, shots from the forest  
I think they're hunting, hunting for bear  
If I dare, I'll go out in the forest  
And look for it there

Oh, I go into things that don't do me good  
I go there, I go there unhappy  
I feel at home, feel at home there  
I need to do something 'bout it

Mirror, mirror on the lake  
Who used to cry me what it takes  
To feed a soul, to feed a brain  
To make me dare that change

It gets terribly dark here,  
It gets so terribly dark  
It gets terribly dark here  
I'll put myself on fire if I find a spark

It feels like I've been indoors for a century now  
I'm dying, I'm dying to see sunlight  
Oh how I need to go out and play,  
Bring a couple of friends and fire

Hold my hand, I wanna move on  
I have things I'd like to explore  
Tell me darling, how are we doing  
Do you think we can dance

It gets terribly dark here,  
It gets so terribly dark  
It gets terribly dark here

I'll put myself on fire if I find a spark

Pounding in my head, I know how to do it  
Follow the signs to the things that trim my heart  
Look to the sky, ride into the forest  
Talk to my friends, sing to the stars

It gets terribly dark here,  
It gets so terribly dark  
It gets terribly dark here  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark

It gets terribly dark here,  
It gets so terribly dark  
It gets terribly dark here  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark

It gets terribly dark here,  
It gets so terribly dark  
It gets terribly dark here  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark  
I'll put myself on fire if I find a spark
