

Love Immortal

Stan Walker

Voice of the night warms my blood
The dusk and the dawn is in our eyes
The fever's rising beyond the horizon
Open skies leave a trail to the sun
We're in the battle for the magical
Between the beast and the beautiful
In the crush of the masses
How did I find you [Chorus:]
Oh, love immortal
We will not be broken
Oh, love immortal
You and I will never die
Feel the phoenix burning in my heart
Scream at the wind and the dust, yeah
We're in the battle for the magical
Between the beast and the beautiful
In the crush of the masses
How did I find you [Chorus:]
Oh, love immortal
We will not be broken
Oh, love immortal
You and I will never die
Ooh, ooh, ooh
Our love will never die
Ooh, ooh, ooh
Our love will never die [Instrumental]
Oh, love immortal
How did I find you [Chorus:]
Oh, love immortal
We will not be broken
Oh, love immortal
You and I will never die [Chorus:]
Oh, love immortal
We will not be broken
Oh, love immortal
You and I will never, never die
