

Sensitive Nerve Endings

Mortification

Sensitive nerve endings, endings
Evil on my spine attacking, attacking
The way of hate may break my spine
 Grace sufficient in this time
 Miracles daily come my way
 Patience to wait until today
Thy will be done in my life of pain
 I will wait your perfect time
 I thank God when I see my life
 I can feel my brother's pain
Martyrs die with hands held high
 In the west we turn our eyes
Give us your world view of will
 I thank God he spared my life
