Trippin'

Ledisi

You can do what you want, be how you be
But I gotta fall back, boy 'cause this ain't me
Ooh baby, baby, I ain't trippin' over you
Go ahead and do you 'cause I'mma do me
But you just lost one and the one is me
Ooh baby, baby, I ain't trippin' over you
Mama told me watch out for bad boys but I didn't listen
Givin' all my stuff away for some hugs and kissin'
Not waitin' 'til I found the right one
I let you in you disrespect me now I'm done
What happened to you?
You're not what you said you were
The man I knew, you gave my love to her
Gotta let you go 'cause I can't take it no more, no more
You can do what you want, be how you be
But I gotta fall back, boy 'cause this ain't me
Ooh baby, baby, I ain't trippin' over you
Go ahead and do you 'cause I'mma do me

But you just lost one and the one is me
Ooh baby, baby, I ain't trippin' over you
There ain't nothin' you could possibly say to make me come back
Everythin' you did has displayed, you don't know how to act
I've given all I've given and I'm done
And I can't believe I almost played the fool again I'm done
The well is dry and I'm leavin' this time
You can dry your eyes, ain't no need to cry
I gotta let you go 'cause I can't take it no more
No more, no more, no more
You can do what you want, be how you be
But I gotta fall back, boy 'cause this ain't me
Ooh baby, baby, I ain't trippin' over you
Go ahead and do you 'cause I'mma do me
But you just lost one and the one is me
Ooh baby, baby, I ain't trippin' over you
I ain't trippin' over you, I ain't trippin' over you
