Stupid Kid

Mishima USA

There are things that used to make me smile
One of them was you for just a little while
You left me for dead so far away
I replaced you with fear and shame
You'll be happy on the day I dieThere are things that used to make me laugh
But now they're deeply buried in the past
I left them there so far away
Replaced my humor with my pain
I'll be happy on the day it diesRemember when I said, "I love you"?
Well forget it, I take it back
I was just a stupid kid back then
I take back every word that I saidThere are things that used to make you cry
One of them was me for just a little while
Why is it that you had to say?
Goodbye in your special way
You slashed the tires on my carRemember when I said, "I love you"?
Well forget it, I take it back
I was just a stupid kid back then
I take back every word that I saidRemember when I said, "I love you"?
Well forget it, I take it back
I was just a stupid kid back then
I take back every word that I said
