Step Into The Light

Chasing Victory

There's blood on my hands
And there's blood on the ground
And we're dying just to see
Who the next victim of our disaster willIf only you would just accept him
We'll never be alive until we open up our eyes
Step into the light, your burning my eyes
And I'm paralyzed by you, step into the lightAnd it's goodnight to you and the accused
The sky up above is burning with red
Everyone can plainly see we were never dead
We were searching for a contagious diseaseI guess we'll never understand it
We'll never be alive until open up our eyes
How could this happen to me
I never burned this city down
