

If He's Ever Near

Fern Lindzon

written by Karla Bonoff

1976 Seagrape Music (BMI)They say just once in life

You find someone that's right

But the world looks so confused

I can't tell false from trueAnd love's so hard to find

In this state of mind

Oh I hope I'll know him

I hope I'll know him

If he's ever nearWell it seemed the time had come

I thought you were the one

When I looked into your eyes

It never looked like liesAnd love's so hard to see

When it's in front of me

Oh I hope I'll know it

I hope I'll know it

If it's ever nearAnd love's so hard to see

When it's in front of me

Oh I hope I'll know it

I hope I'll know it

If it's ever nearWell I know that in my time

I'll have it sweet and fine

But it won't add up to much

Unless I feel his touchAnd love's so hard to find

So I guess I'll just give up trying

Oh I hope I'll know him

I hope I'll know him

If he's ever near
