

Hero

[Tynisha Keli](#)

I got everything a girl could ever want and baby boy I found it in you
If I hand my heart to you I know that I won't come back to me battered and bruised and gotta tell the truth
Cause every day and night imma be right by your side I told you this was forever
From everything in you baby its you its only you that makes better I got my hero
I wanna thank you in advance for a beautiful life
And tell you how happy I am just to be your wife
You're my rock
you know you're my confidant
Got that s on your chest because you're my super man
You're my hero
you're my hero
my hero
you're my hero
From the beginning I gave my heart to you and you're giving your heart to me
And w/o a doubt we lock them all together and we threw away the key
Cause every day and night imma be right by your side I told you this was forever
From everything in you baby it's you its only you that makes better I got my hero
I wanna thank you in advance for a beautiful life
And tell you how happy I am just to be your wife
You're my rock
you know you're my confidant
Got that s on your chest because you're my super man
You're my hero
you're my hero
my hero
you're my hero
You thought our love would be your kryptonite
And now you realize its only thing that makes you fly
Its simply ever after like a fairytales and chapter
This is how I show my grasp to my super man
I wanna thank you in advance for a beautiful life
And tell you how happy I am just to be your wife
You're my rock
you know you're my confidant
Got that s on your chest because you're my super man
You're my hero
you're my hero

my hero
you're my hero
