# Drugtown

## This Bike Is a Pipe Bomb

Imagine a town, which i dont undertstand your attraction, drug town, yeah, in a small town, i get pushed around in your town, Why should i lose her to you, drug town? I will vow will vow to strike you down, drug town, drug town, sacrebleu get down, you're a rockstar now with a needle in you arm, gee its a wonder you never won my charm, rock star with a needle in your arm, cuz rockstars with needles in their arms always turned me on, i wanted to see a punk rock show, but you gave me some pills and its off to bed we go, off to bed we go, off to bed we go, I'm joining the ranks of everyone you know, everyone you know. I'm joining the ranks of losers I don't know. You're a stupid drug in an ugly town, your a stupid drug in an ugly, ugly town.
