

# Office

## Daiquiri

Push it if you want to see what happens  
Push it and it's gonna start to happen it's  
Funny, and then you get kicked out  
You are the best paid mommy from the wrist  
There is a plastic tube with liquid drips  
Let's puncture it  
Dressy, when you're gettin confirmed you're dressy  
and the priest will be acting blessy  
That's how he's supposed to be  
You are the best paid mommy from the wrist  
There is a plastic tube with liquid drips  
Lets puncture it  
Peel back, do you want to see what's underneath?  
Broken and grinding down the adult teeth  
You are teh best paid mommy from the wrist  
There is a plastic tube with liquid drips  
Let's puncture it  
You could just push it and you could just cut it  
and you could just bite it and you could just love it
