

Starving

The Readymen

Tell me where have you been
I was starving the other night
I was starving today
Tell me where have you been
I was starving the other night
I was starving 'cause I needed you I just can't wait another day
I want the daysies and the butterflies
And nothing else can make me stay
It only drives me all insane
All insane I just can't wish another day
I want a riot and a heart of bliss
Too many things can make me stray
And drivin' all my friends away I just can't dream another day
I want the roses and the buttercups
And everything that's beautiful
It only tears me all appart
All appart
