Telescope Eyes

Eisley

Oh, you humor me today
Calling me out to play
With your telescope eyes, metal teeth
I can't be seen with you, you seePlease don't make me cry
Please don't make me cry
I'm just like you, I know you know
I'm just like you, so leave me aloneI wonder why can't you see
You're just not near enough like me
With your telescope eyes, metal teeth
I can't be seen with youPlease don't make me cry
Please don't make me cry
I'm just like you, I know you know
I'm just like you, so leave me alonePlease don't make me cry
Please don't make me cry
I'm just like you, I know you know
I'm just like you, so leave me alonePlease don't make me cry
Please don't make me cry
I'm just like you, I know you know
I'm just like you, so leave me aloneOh, you humor me today
