Recorder Grot

Pavement

My space is ready to be takenBy the sweat up high, with the fucked up eyes with the ugly face
the ugly face, the ugly face, the ugly face, the ugly thighs
We all thought you'd lose to the recorder grot and kick itBehind my back before you cross
Behind my back before you crash
Behind my back before you crack
Behind my back before you crack
Behind my back before you crossBehind my back recorder grot
Behind my back recorder grot
Recorder grot, recorder grot, grot
