Give Grace

Rusted Root

Whatever it is you want
I dont care about that
But I'll give it to grace
to fall down on your faceSentimental Rose heres on fire
all to mend this heart
all to mend this heartcuz no one knows you
in this town
no you wont be
hanging around
oh girlall to mend this heart
all to mend this heartno more pity for the loves that fallen
the tiger has risen to raise the warning
lines in the sand dont mean nothing at all
its all been great it all looks like good
now im gonna dance like i should
oh girl where'd you come fromcuz no one knows you
in this town
no you wont be
hanging aroundoh to mend this heart
we gosince you been out its been harder girl
black magic thorns
the flowery walls
and girl this is our last danceits all been great it all looks good
now im gonna dance like i should have done
such a long time ago
