

Go

Hanson

For all the love we made
Just one thing stays the same
The lamp gets dusty, the pipes get rusty
But I don't wanna wash my hands clean You say you love me too
Then why won't you go through
With the nightly kisses, with the hits and the misses
If you can make it on your own Then go if you wanna go
But stay if you wanna know the way
Through the mess we've made
Then lie in the bed you know or go Well, I heard your moving van
But I did, didn't take a stand
You can't leave with 'em, you can't leave without 'em
I never thought I'd want to let you Go if you wanna go
But stay if you wanna know the way
Through the mess we've made
Then lie in the bed you know or go, go, or go For all the love we made
Just one thing stays the same
The lamp gets dusty, the pipes get rusty
But I don't wanna wash my hands clean You say you love me too
(Go if you wanna go)
(But stay if you wanna know the way)
Then why won't you go through With the nightly kisses, with the hits and the misses
(Through the mess we've made)
(Then lie in the bed you know)
If you can make it on your own then go
