Luna

You can never give the finger to the blind
Sometimes I act so stupid but you never seem to mind
That's no way to be laughing at the deaf
I know that I repeat myself when I got nothing leftBut you know hidden thoughts poison life, poison life
Yeah, you know hidden feelings you steal from yourselfSoho has the boots, Noho's got the crack
New England has the foliage but I'm not goin' back
You tell me that I'm good, I know that I was bad
You made me feel so guilty, I can't remember what I hadBut you know hidden thoughts poison life, poison life
Yeah, you know hidden feelings you steal from yourselfBut you know hidden thoughts poison life, poison life
Yeah, you know hidden feelings you steal from yourselfBut you know hidden thoughts poison life, poison life
Yeah, you know hidden feelings you steal from yourself
