

# Frustrated

## Day of Fire

Everything you say is so  
So predictable and small  
I don't want to hear you  
Every conversation costs  
Too much time that I have lost  
Just by standing near you When it gets so frustrating I just sing your song  
Inside my head  
It gets complicated I just sing your song  
Inside my head Everyone seems so sincere  
Manipulated by the fear  
Of the situation  
And it's time and time again  
And it's all that I can stand  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
