

# Whenever You're Around

[Jill Scott](#)

Hey, mmm mmm, listen to me  
Listen to me, listen to me  
Listen to me, listen to me  
Listen to me, listen to me, listen I've been talkin' to this man  
He's been sayin' what I like  
And he makes me smile  
When I'm down, so down He says sweet things in my ear  
All the things that I needed to hear  
But that's as far as it's gone  
I promise, I promise But I enjoy it, I love it so  
'Cause it seems like I'm always alone  
You're at arms reach  
But baby, where are you, where are you? 'Cause I got this fire sweet and true  
But I'm cold as ice around you  
'Cause I'm lonely whenever you're around  
'Cause I'm lonely whenever you're around What happened to the wonderful thing we had?  
It seems like you're missin' in action  
And I'm tired, I'm tired  
I'm tired, I'm tired, I'm tired, I'm tired I don't wanna lose this good life but I ain't scared  
If I'm gonna to be the only one participatin' in this  
'Cause I'm lonely whenever you're around  
'Cause I'm lonely whenever you're around  
'Cause I'm lonely whenever
