Some People Are Crazy

John Martyn

Some people are crazy about him
Some people can't stand his face
Some people, they smile when they know he's coming
Some people chase him out of the placeBut this loving kind of business
Might make your poor heart glad
Yes, this loving kind of business
Might be the best find you ever had
The best find you ever hadSome people are crazy
Some people are just plain good
Some people talk wouldness and couldness
Some people don't do as they shouldBut this loving kind of business
Might make your poor heart glad
Yes, this loving kind of business
Might be the best thing that you ever had
The best find you ever hadSome people got a glass eye
Some people got a window to watch
Some people draw conclusions like curtains
Don't they draw them tightDon't they, draw them tight
Don't they, draw them tight
Don't they, draw them tightSome people are crazy about him
Some people, they can't stand his face
Some people, they laugh when they know he's coming
Some people chase him out of the placeSome people are crazy
Some people are just like me
Some people are crazy
Some people are just like me
