

Kaleidoscope

Thirsty Merc

Like snow falling through our minds
These words melt away with time
I remember when we made a pact
I remember when we took it back
Well I know
Love is like a kaleidoscope With fire burning through my veins
I had a dream that we met this day
I remember when it felt so true
I was sleeping there and losing you
Well I know
Love is like a kaleidoscope All the colours
All the shapes again
Its so beautiful
I cant explain it
Perhaps you need a friend
Tell me girl do you need a friend?
You taught me how to love
Live and be Minutes now and youre at my door
I see your face and Ill dream once more
Love never was a game or a fight
Well make or break it all tonight
And I know
Love is like a kaleidoscope All the colours
All the shapes again
Its so beautiful
I cant explain it
Perhaps you need a friend
Tell me girl do you need a friend?
You taught me how to love
Live and be You taught me how to love
Live and be baby? Minutes now and youre at my door
I see your face and Ill dream once more
Love never was a game or a fight
Well make or break it all tonight
And I know
Love is like a kaleidoscope
Yes I know
Love is like a kaleidoscope
