

# Elevator

## The Black Keys

In the elevator, I pick my floor  
In the elevator, I pick my floor  
Every time, every time I was blind for a time, now fine  
The choice is mine When I get sea sick on dry land  
When I hear voices saying, "Do what you can"  
All the time, every time Oh  
I was blind for a time, now fine  
The choice is mine  
All the time, every time Oh  
I was blind for a time, now fine  
The choice is mine, the choice is mine  
Oh, the choice is mine, oh
