

Christmas Spirit

Donna Summer (Holiday)

Everyone come gather near
And I'll tell you a story that you'll love to hear,
Ooh it's christmas time
The season's ripe
And all around the world we celebrate the birth of Christ
He came to bring us peace
He came to bring us everything that we need
To set us free
Oh I long to feel that christmas spirit in my heart
Oh I long to feel that christmas spirit in my heart
As a child I still recall
Well christmas was my favorite season of them all
Oh my heart was filled with child like grace
And I hope there is in knowing
Why the savior came
He came to bring us peace
He came to bring us everything that we need
To set us free
Now I long to feel that christmas spirit in my heart
Yes I long to feel that christmas spirit in my heart
So turn your heart throbs in
And let God grow within
Not to destroy
The greatest gift I've known
He came to earth below
To show us love
He came to bring us peace
He came to bring us joy
He came to bring us everything
Have faith if we believe
The gift that we receive
Is like that love and everything
The greatest gift I've known
He came to earth below
He came to bring us everything
Still I long to feel that christmas spirit in my heart
Yes I long to feel that christmas spirit in my heart
Now I long to feel that christmas spirit in my heart
