

Johnny Guitar

Johnny Winter

When I was a young boy, I thought I had that touch
I wanted to play that guitar so much
Now I'm a man and I got me one
Now I'm playing, playing son of a gun They call me Johnny Guitar
They call me Johnny Guitar
They call me Johnny Guitar
I'm going to play in your town Gonna play some blues, gonna play some rock 'n' roll
And try to upset all the pretty girl's slow
Gonna place them slow and place them fast
Gonna have a ball as long as it lasts They call me Johnny Guitar
They call me Johnny Guitar
They call me Johnny Guitar
I'm going to play in your town You can get a girl and hold her close to you
But you better get her before I do
We're gonna have some fun day all day through
I'm playing my guitar especially just for you They call me Johnny Guitar
They call me Johnny Guitar
They call me Johnny Guitar
I'm going to play in your town They call me Johnny Guitar, yeah
They call me Johnny Guitar
They call me Johnny Guitar
I'm coming to play in your town
