

Entwined

Lacuna Coil

And you take me over
over again.
I wonder how I can go on and on
when you want to bury my passion.
You are the shell around
I cannot escape
and I swallow my pride.
Entwined together now
it's time to pass it over
(and you take me over, over again)
Entwined together now.
And you take me over
over again.
I wonder

how can I live on and on
when you want to live in a hurry.
You are the wall
-that I-
that I have to remove.
And I swallow
I swallow my pride.
Entwined together now
It's time to pass it over.
Entwined together now
entwined forever.
And you take me over
over again.
Entwined together
entwined forever.
