

Shake It

Jc Chasez

This electricity
It's too much for me
The way you shake my bones
Girl I've set too low
And do you know my name?
Does it make a difference anyway?
The way you love to tease
And tonight I'm on my knees, oh
Sugar
Shake it, do it, give me what you got
Oh shake it, do it, give me what you got, girl
Shake it, do it, give me what you got
Oh shake it, do it, give me what you got, girl
This electricity
It's too much for me
The way you hypnotize
With your side to side
Wanna take some time
And get behind your eyes, yeah
Only want to please, you
'Cause you'll be making it and making it electric, oh
Sugar
Shake it, do it, give me what you got
Oh shake it, do it, give me what you got, girl
Shake it, do it, give me what you got
Oh shake it, do it, give me what you got, girl
Do you know
I want a spark of your touch
I wanna taste you so much
While my mind is steaming
Do you know
Want a spark of your touch
I wanna taste you so much
We should be making it and making it electric, oh
Making it electric, oh
I'll do it to you're satisfied
Sugar
Shake it, do it, give me what you got
Oh shake it, do it, give me what you got, girl

Shake it, do it, give me what you got
Oh shake it, do it, give me what you got, girl
Running through my body is too much for me
Running through my veins, through my circuitry
Running through my body is too much for me
Running through my veins, through my circuitry
Shake it, do it, give me what you got
Shake it, do it, give me what, give me what, give me what you got
Shake it, do it, give me what you got
Shake it, do it
And do it till you're satisfied
Making it electric, oh
And do it till you're satisfied
And do it till you're satisfied
And do it till you're satisfied
