Demonizer

Judas Priest

Born of the sun, crashed to the earth
Tormented reviled, engorged hate from birth
Hellions the steed, blood's on the wing
Claws set to slice, vengeance he'll bringCremating the land in seek and destroy
Apocalypse slays, napalm he'll deploy
The beast of a god, eagled of his race
Prepared to onslaught and bare face to faceAcross the divide, the threshold's in flames
The painkiller rises againThe scream of the demon, there's evil about
They've come to possess us, out, demons outBlade of the wheel cuts deep in the bone
It's Gideon's quest to take Satan's throne
The critical mass and power that they wield
Exterminates all when vermin rebelA maelstrom begins to disintegrate
And pulverize all in it's wakeThe scream of the demon there's evil about
They've come to possess us, out, demons outThe scream of the demon, there's evil about
They've come to possess us, out, demons outDemonizer
(Out, out, out, demons out)
Demonizer
(Out, out, out, demons out)
Demonizer
(Out, out, out, demons out)
Demonizer
(Out, out, out, demons out)
Demons out
