

# Ants Are Cavemen

## Thin White Rope

Ants are cavemen living in a brand new world  
I don't know 'bout money, drugs, or girls  
They're only fighting to progress  
Poison kills the weak and feeds the rest

Ants are cavemen living in a brand new world  
Roaches have been living since the dawn of time  
Have seven brains without a mind  
Have seven mouths for every brain  
They can live without us just the same

Ants are cavemen living in a brand new world ( x4)
