

In This Together (feat. Shuree)

Rapture Ruckus

VERSE 1

you are my brother
you are my sister
made by the same God
loved by the same heart

CHORUS

we've got to lift up
we've got to give love
oh that's how the world will know us
i'll be the hand that you can't hold
when you can't make it on your own
i promise you are not alone
we're in this together
i'll be your shelter from the rain
lift up your head don't be afraid
oh there is nothing we can't face

we're in this together we're in this together(x3)

VERSE 2

and when your filled with doubt
your walls come crashing down
i'll be there by your side
together walking through this fire

CHORUS BRIDGE

when i'm falling and i can't breathe
the light is fading
in my darkest hour you're here
and i remember what you said
i'll be the hand that you can't hold
when you can't make it on your own
i promise you are not alone
we're in this together
i'll be your shelter from the rain
lift up your head don't be afraid
oh there is nothing we can't face
we're in this together we're in this together(x3) repeat we're in this together
