

# Hollow Earth

Ike Willis

Up in the arctic  
In the year of nineteen hundred twenty-nine  
An expedition  
That would settle who would find the Pole this time â€œ  
Just what Iâ€™m seeinâ€™  
While the folks back home think Iâ€™ve gone off my keel!  
Evâ€™ry man agreeing  
That enormous mammoth they all saw was real

He must have had too much/It just cannot be so  
It must have been the cold that made his mind go  
He must have had too much/It just cannot be so  
It must have been the cold that made his mind go

Hey, where the hell are we?/Anâ€™ what the hellâ€™s the latitude?  
We canâ€™t be seeinâ€™ this/So whoâ€™s the joker  
â€˜Cause I ainâ€™t no jokinâ€™ mood  
Itâ€™s sâ€™posed to be freezinâ€™/There ainâ€™t a sign of ice in sight  
And if you think itâ€™s Siberia/You got another thought coming  
Only one that must be right

It must be (well, I guess it must be)/I guess it must be  
â€˜Cause I thought I heard Agharta crying out to me  
It must be (well, I guess it must be)/I guess it must be  
Still, I thought I heard Agharta crying out  
To meet me

Crying out to me

Must be some reason  
Why this compass acts so strange on top of earth  
Canâ€™t tell what season  
It must be that place they call the Hollow Earth

The earth beneath your feet/The earth that surrounds you  
The earth beneath your feet/The earth thatâ€™s around you  
The earth beneath your feet/The earth that surrounds you  
The earth beneath your feet/The earth thatâ€™s around you  
The earth beneath your feet/The earth that surrounds you

The earth beneath your feet/The earth thatâ€™s around you

Walter â€“ on your new TeeVee screen/Interrupted yer program

For what they call a very special bulleteen

A disk has landed in every nation, everyland

And this reporterâ€™s opinion is/

Somebody over here has overplayed their hand

It must be (well, I guess it must be)/I guess it must be

â€™Cause I thought I heard Agharta crying out to me

It must be (well, I guess it must be)/I guess it must be

Still, I thought I heard Agharta crying out,

Crying out

Crying out

Crying out

To meet me

The earth beneath your feet

The earth crying out

To meet me

The earth beneath your feet/The earth that surrounds you

The earth beneath your feet/The earth thatâ€™s around you
