

One More Time

[Marco Aiello](#)

I heard a call to sing in trust
Or talk in doubt (la la la)
It stole your heart
How far to fall
I might go dark
It's hard to tell
Betray myself
Before I leave
These gates of hell One more time, We'll make it through the night
One less thought
So Love can make us right Together when it's glowing Life
It will secure , this faith inside
The talk of hearts
A path of song
Inside the maze
No right or wrong
No need to please
Where all's released... One more time, We'll make it through the night
One less thought
So Love can make us right
