Don't Let Me Go

RAIGN

I'm watching myself
Drifting away
A vision so darkened
I cannot stay
I'm reaching out wide
Trying to catch myself before I fall
Too little too late
Can you save meWhere do we go when we walk on light
Who do we call at the edge of night
Carry me close like the tear drops in your eyes
All I can give you is memories
Carry them with you and I'll never leave
I'll lay my head down
But when I lay my head downDon't let me go
Hold me in your beating heart
I won't let go
Forever is not enough
Let me lay my head down on the shadow by your side
Don't let me go
Hold me in your beating heartSo let me freeze time
Before it turns cold
The moments go by
And life goes on
The torturous stars
Are taking every breath I wish I held
The love in my heart
Is never endingWhere do we go when we walk on light
Who do we call at the edge of night
Carry me close like the tear drops in your eyes
All I can give you is memories
Carry them with you and I'll never leave
I'll lay my head down
But when I lay my head downDon't let me go
Hold me in your beating heart
I won't let go
Forever is not enough
Let me lay my head down on the shadow by your side
Don't let me go
Hold me in your beating heartYou can't see me

But you still feel me
I only live in your memories
I mean something
Your everything
You lay me down
Take me thereDon't let me go
Hold me in your beating heart
I won't let go
Forever is not enough
Let me lay my head down on the shadow by your side
Don't let me go
Hold me in your beating heart
