

Higher

[Kate Boy](#)

Verse 1]

When you're reaching your limit and feeling resentment in how it folds
You thought something was in it, but it's beginning to break apart
You gotta fight to rise above
Feel it moving and triggering, think there's something black in the road
But I know when a flicker gets bigger, I know I'm not alone
I gotta fight to rise above
Cause I dream of the day we can say we've changed us[Chorus]

[Bridge]

Higher, higher than myself
Higher, higher than anything else
Cause I dream of the day we can say we've changed us

[Chorus 2]

We are, we are, we are equal, equal, equal
We are, we are, we are equal, equal, equal

[Outro]

Higher and deep, go
Higher and deep, go
Higher and deep, go
Higher and deep, go
