

In The Right Place

Kix Brooks

Hey pretty girl just look at you tonight
A team a horses couldn't drag me away
You ain't got no business bein' lonely baby
Oh let me put a smile on your face I hope you don't mind if I put a little Otis Redding on
Pour us a glass of wine
We'll dance like drunken fools cross my livin' room baby
Pull your body close to mine If you're needin' a friend to talk to baby
Lay it on me I've got all night
If you're wantin' a man who's wantin' to hold ya
Come on give these arms of mine a try
And if you're lookin' for something a little stronger
You ain't gotta look no longer
You're in the right place
Yeah you're in the right place Oh look at me I went and kissed you
Too late now to turn back now
You've got that certain something and I just can't resist you
Let me show you what i'm all about If you're needin' a friend to talk to baby
Lay it on me I've got all night
If you're wantin' a man who's wantin' to hold ya
Come on give these arms of mine a try
And if you're lookin' for something a little stronger
Oh baby you ain't gotta look no longer
You're in the right place
Oh yeah you're in the right place If you're needin' a friend to talk to baby
Lay it on me I've got all night
If you're wantin' a man who's wantin' to hold ya
Come on give these arms of mine a try
And if you're lookin' for something a little stronger
Hey baby you ain't gotta look no longer If you're needin' a friend to talk to baby
Lay it on me I've got all night
If you're wantin' a man who's wantin' to hold ya
Come on give these arms of mine a try
