

Beautiful Woman

P.J. Olsson

Because I love a beautiful woman
I get in trouble in my mind
Because I love a beautiful woman
In the mind Traveled through blues, soul
Everything that I know
To show how wrong a man can be
When a woman dreams her dreams
Things are known It don't feel right
To look and think the things I do
How's a man to respond
When beauty is defined by you
A song gives me strength
And I can't do without...without Because I love a beautiful woman
I get in trouble in my mind
Because I love a beautiful woman
In the mind Traveled through love long enough
To know it's a road
And you are my pain Be yourself now
And tell me anything
I can't hear without your voice
Can you bring me back home
From this failure road
That's my own Because I love a beautiful woman
I get in trouble in my mind
Because I love a beautiful woman
In the mind
