

Under the Gun

Dokken

So long baby bleed
Had more than enough time to burn it all
Down to the core of your bottomless soul
Thought you always wanted to be free I won't miss you when you're gone
So hard to believe it went on for so long
But I'll carry on without you like before Your day in the sun
Close your eyes, it's gonna burn
Your day in the sun
Will you ever learn? So long baby blue
And waiting so long but you never came through
We dried all your tears
Thought you were the one I could believe in I won't miss you when you're gone
So hard to believe it went on for so long
But I'll carry on without you like before Your day in the sun
Close your eyes, it's gonna burn
Your day in the sun
Will you ever learn? I won't miss you when you're gone
So hard to believe it went on for so long
But I'll carry on without you like before Your day in the sun
Close your eyes, it's gonna burn
Your day in the sun
Will you ever learn? Your day in the sun
Close your eyes, it's gonna burn
Your day in the sun
