

Who's That Man

Toby Keith

Turn left at the old hotel
I know this boulevard much too well
It hasn't changed since I've been gone
Oh, this use to be my way home They paved the road through the neighborhood
I guess the county finally fixed it good
It was gettin rough
Someone finally complained enough Fight the tears back with a smile
Stop and look for a little while
Oh, it's plain to see
The only thing missin is me That's my house and that's my car
That's my dog in my backyard
There's the window to the room
Where she lays her pretty head I planted that tree out by the fence
Not long after we moved in
That's my kids and that's my wife
Who's that man, runnin my life If I pulled in would it cause a scene?
They're not really expectin me
Those kids have been through hell
I hear they've adjusted well Turn around in the neighbor's drive
I'd be hard to recognize
In this pick-up truck
It's just an old fixerup Drive away one more time
Lots of things go through my mind
I guess the less things change
The more they never seem the same That's my house and that's my car
That's my dog in my backyard
There's the window to the room
Where she lays her pretty head I planted that tree out by the fence
Not long after we moved in
That's my kids and that's my wife
Who's that man, runnin' my life That's my house and that's my car
That's my dog in my backyard
There's the window to the room
Where she lays her pretty head I planted that tree out by the fence
Not long after we moved in
That's my kids and that's my wife
Who's that man, runnin' my life Who's that man, runnin' my life
Who's that man, runnin' my life
Who's that man, runnin' my life
