

# Number One

## Skye Sweetnam

I saw my boyfriend hanging with this girl that I hate  
He didn't have to tell me why last night he was late  
I can't believe what you tell me, your lies have come undone  
Now I'm living on the run, looking out for number one  
I took a ride to the city, had to get out of this place  
I just can't stand the pity and when the tears fall down my face  
I used to think it was over but it's only just begun  
Now I'm living on the run, looking out for number one  
One day you'll see me but only when you're dreaming  
One day you'll say, I was the one  
I hitched a ride on a greyhound, stashed away on a train  
Bought a ticket for the subway, playing guitar in the rain  
I wanna follow the rivers to an island in the sun  
Now I'm living on the run, looking out for number  
One day you'll see me but only when you're dreaming  
One day you'll say, I was the one  
Late at night trying to fight  
I just might think about him  
Right now I'm feeling fine  
I'm better off without him, yeah  
One day, one day  
One day you'll say, I was the one  
One day you'll see me but only when you're dreaming  
One day you'll say, I was the one  
I know that one day you'll see me  
I'll haunt you when you're dreaming  
One day you'll say, I was the one  
I'm number one
