

Crazy Horse

Onward Etc

they saw the darkness of the night, I said to follow my lamplight,
they had the devil in their eye, I felt a fire burn deep inside,
so come along I'll take you to the deepest sea somewhere between my skull,
the waves inside your brain will send your sanity bouncin off the wall

they said to take it all with a grain of salt as they rub it in my wounds
but as the kerosene is burninâ€™ deep well they'll take me for a fool,

what they don't know, is that we're crazy,
what they don't know, yeah we lost control, we lost control
what they don't know, is that we're crazy,
what they don't know, yeah we lost control,
we lost control, oh, of it all!

Well thereâ€™s a vision of whatâ€™s right, but hell that ain't my kinda life
and thereâ€™s a thrill in what I write, involves a devil and some dice
to sway away into the fray, unlock the door and free your destiny,
and take the key and turn it, burn the evidence, set your spirit free

they said to take it all with a grain of salt as they rub it in my wounds
but as the kerosene is burninâ€™ deep well they'll take me for a fool,

what they don't know, is that we're crazy,
what they don't know, yeah we lost control, we lost control
what they don't know, is that we're crazy,
what they don't know, yeah we lost control,
we lost control, oh, of it all!

Yeah!

So take it all and burn it all
and take it all and burn it all
I said to take it all and burn it all
and take it all and burn it all

they said to take it all with a grain of salt as they rub it in my wounds
but as the keroseneâ€™s burninâ€™ deep well they took me for a fool

they said to take it all with a grain of salt as they rub it in my wounds

but as the kerosene, it burned me deep well they took me for a fool
they said to take it all with a grain of salt as they rub it in my wounds
but as the kerosene, it burned me deep well they took me for a fool

.
what they don't know, is that we're crazy,
what they don't know, yeah we lost control, we lost control
what they don't know, is that we're crazy,
what they don't know, yeah we lost control,
yeah, we lost control, oh, of it all!
