

# This Pill

Pete Murray

Two years  
And I feel like I'm over this pill  
Is the reason I wonder and still  
You just light up the way  
I burn  
Like the sunsets above me, two feet  
My eyes are so tired, I can't sleep  
And it's only a day  
And all of this heart is waiting for you  
And all of this mind falls apart for you  
Two years  
And I feel like I'm over this pill  
Is the reason I wonder and still  
You just light up the way  
Your soul  
Seems to guide like a bird and still  
Even though with no word, I will  
Hold a place for your love  
And all of this heart is waiting for you  
And all of this mind falls apart for you  
Two years  
And I feel like I'm over this pill  
Is the reason I wonder and still  
You just light up the way
