

# Where Can I Go?

Laura Marling

Verse 1:

I was a daddys girl sometime,  
But I loved my momma till the end of time  
I am cold and I am bright,  
Its a curse if mine to be sad at night  
Its a curse of mine to be sad at night

Chorus:  
Late at night hell come to me

And hell tell me Im alone

Dont think I dont already know?

All I see is road

No one takes me home,

Where, where can I go?

Verse 2:  
Truth about desire says, I need to breathe another day

Truth I heard about regret

Its the hardest truth Ive come to yet

Its the hardest truth Ive come to yet

Chorus:  
Late at night hell come to me

And hell tell me Im alone

Dont think I dont already know?

All I hear are words

Theres something I dont know

Where, where can I go?

All I see is road

No one takes me home,

Where, where can I go?

Verse 3:  
If I feel like I want to be alone

If I feel like Im better fought then won

Pick up your rope and jump for Rosie

Shes just a sweet thing with her curls

Just about a woman with her clothes on

You take them off, and she's a girl

All I hear are words  
Theres something I dont know

Where, where can I go?
