

# The Pain

## Rick Trevino

Hello old friend it's me again  
I've had a change of prayers  
I've learned that love's not meant to be  
When only one heart caresHiding all these tears I cry  
Is like holding back the rain  
Lonely days and scary nights  
Only amplify the painChorus  
I know that she's gone forever  
That's something that nothing can change  
I'm not asking for a miracle  
Just help me Lord  
To live with the painI've heard that time's a healer  
Only time will tell  
I'm a true believer  
You can lead me from this hellRepeat chorusBridge  
I've heard that prayers  
Can move mountains apart  
Lord, help me bear  
The hurt that's in my heartRepeat chorusTag  
Help me help me find a way  
To live with the pain
