on Our Way

imani coppola

Is it over now? If it's safe to come out
From behind these walls we've built
With bitter words and silence
We'll be on our wayI will break mine down and I'll climb over yours
We'll embrace each other once again just like we used to
And we'll be on our way
Believe in me, Like I believe in me
Believe in me like I believe in you
And we'll be on our waySo if it's over now, then it's just beginning
Possibilities are endless constellations and galaxies
Instead of chasing shadows we can chase the sun
Instead of breaking promises we can break these patterns
On our way
We'll be on our way
