

# 1904

## Benjamin Francis Leftwich

Well some may say it's not even funny  
And there you stand not even trying  
They say it is in line with the angel  
Sometimes noise is just your mind  
But the lesson is vague in the light now  
Shows a dear with her mind on the moor  
And I'll something with the sun is just a friend  
Since they shook the earth in 1904  
And as I lowered down I hear it's a message  
And its 1902 just telling people to get out  
And if there was just a way I could tell them  
It's been long but you are right  
And the singing is slow and so quiet  
Like the sound when you sleep off the floor  
And I'll something with the dirt is just a friend  
Since they shook the earth in 1904  
And when the night is young with the bridge is sung  
Something passing by I was sure

And the only one you can tell it to  
Well it's the only one that ever knows  
And since more robbers made to go through my window  
Here is something so strange and something louder than before  
And you living with no light or direction  
But temper size and now you know  
When believing is hard but you go now  
And you feel what you drag across the floor  
Because something with these drills are just a friend  
Since they shook the earth in 1904  
And when the night is young but the bridge is sung  
Something passing by I was sure  
And the only one you will tell it to  
Well it's the only one who will ever know  
And some will say it's not even healthy  
But body is young and mind is sure  
That something is alright well you're thinking  
Cause they shook the earth in 1904
