

# Sweet Sweet Smile

## Tatjana

When the world gets me down  
And I feel like giving in  
Life has got me crazy  
And my head is in a spin  
I think of you and all my troubles  
Seem to disappear  
I know that I can count on you  
To wipe away my tears

(Bridge:)

You take me on a rainbow ride  
Whenever I'm with you  
Baby give me just one look  
That's all you have to do

(Chorus:)

It's your sweet, sweet smile  
That's gonna take me away  
Always be together baby in every way  
And come rain or shine I know  
Love is here to stay  
Got your sweet, sweet smile every day

Before I had you by my side  
The nights would be so cold  
Then you came into my life  
Now I've got you here to hold  
Gonna make that magic that we share  
Stand the test of time  
It's a secret I've been keeping  
Ever since I made you mine  
When there's gray clouds in the sky  
You can turn them all to blue  
Baby you're my everything  
And my everything is you

(Chorus)

Sweet...  
Got your sweet...

Got your sweet...

(Bridge)

(Chorus)

(Repeat chorus)
