Life

Wild Orchid

A duration of an earthly existence
A specific phase of earthly existence
A sentence of imprisonment
With the remaining quotient of a convicts existence
(Life is a sequence of musical and mental experiences)
(That make up the existence of an individual)
A sister wants a brother
Always trying to please another
Young girls wish that they were old
A petal wants to be its own rose
See life has such funny ways
But don't regret you came
See life is always changing
Yet life remains the same
So much to gain
To win, to lose, to try
Oh yeah, it's all a part of life
To heal, to feel, to be real
Oh yeah, it's all a part of life
Life, your life
[Inaudible]Empty pages will find words someday
A perfect person will disobey
You may never find true love
Why must one be taken advantage of
See life has such funny ways
But don't regret you came

See life is always changing
Yet, still remains the same
So much to gain
To win, to lose, to try
Oh yeah, it's all a part of life
To laugh, to cry, to never
Oh yeah, it's all a part of life
To learn, to hope
It's all a part of life
To dream, to cope
It's all a part of life
To heal, reveal

It's all a part of life
To fear, to be real
It's all a part of life
Oh no, not without a fight
I won't give up, I won't give up
Don't give up, don't give up
Sequence of physical and spiritual experience
Don't give up
Vital and functional, distinctly individual
Don't give up
Pattern of principal, existing in reality
Don't give up
Of or relating to the animal mentality
Don't
