Not The End Of The World

Hear'say

Written by Kennedy / Lever / Percy / Woodcock / Cawley
Say you been hurt now
Say that nothing feels the same
Say you're alone now It wasn't working anyway
Get up, get out
And you will find
You're not the first and you won't be the last I know
No looking back
It heals with time
It's not the end of the world
Just work it out
Stop looking down
It happens to everyone
You're not there out on your own
You're never alone
Just gotta look around
You're gonna see
How it can be
The sun will come out again
Shine on every boy and girl
You know it's not the end of the world
How can I tell you
How can I make you understand
Nothing comes easy
But it's worth it in the end
Get up Get out
Make up your mind
The hardest part is knowing when to let it go
So won't you leave the past behind
It's not the end of the world

Just work it out
Stop looking down
It happens to everyone
You're not there out on your own
You're never alone
Just gotta look around
You're gonna see
How it can be

The sun will come out again
Shine on every boy and girl
You know it's not the end of the world
Someday you will look back and remember
One wonder just how you ever make it through
And this t promise you
You're not the first and you wont be the last I know
It's not the end of the world
Just work it out
Stop looking down
It happens to everyone
You're not there out on your own
Never alone
Just gotta look around
You're gonna see
How it can be
The sun will come out again
Shine on every boy and girl
You know it's not the end of the world
