

# Change

## The Partisans

You've got to grow up sometime  
And see the other point of view  
Is it good or is it bad  
Is it old or is it new  
Change change  
Soon the day when it will all change  
I'm waiting patiently for the day  
When it's going to change  
It's all the same for miles around  
You love to hate the band  
With the same old sound  
Don't let your only fear break away  
That way your phoney cause  
Will live another day  
The tables are not turned  
Until you find  
A solution to a problem  
Within your mind  
Your views can change  
Just like your clothes  
So what's the answer  
No one knows  
You'll have to grow up another day  
You'll have to find out another way  
Questions can't be answered, ain't that strange?  
Fight your endless fight and nothings gonna change
