

I Couldn't Love You More

Vern Gosdin

If you would always love me, the way you love me now
There wouldn't be a mountain I couldn't climb
Your smile is like the sunshine, your tears like the rain
You've added so much to this life of mine

And I feel the feeling growing stronger
And every day I seem to love you more
God gave us the need for each other
And I couldn't love you more, than the way that I'm loving you now

I'm growing used to loving you and having you around
I don't recall a time you let me down
And when you're here beside me, to love me and to guide me
I'm amazed at the world that I have found

And I feel the feeling growing stronger
And every day I seem to love you more
God gave us the need for each other
And I couldn't love you more than the way that I'm loving you now
Oh, I couldn't love you more than the way that I'm loving you now
