

Totally Confused

Urban Gypsies

I'm totally confused by you
I'm totally confused by you Ten foot man makin' my lunch
You'll never understand
I want you so much And I never, never want it
And I never, never want it
And I never, never want it
And I never, never want it I'm totally confused by you
I'm totally confused by you Screamin' in my face
Whisper in my ear
Put me in a suitcase
With the can of beer And I never, never want it
And I never, never want it
And I never, never want it
